

**REMARKS**

The Examiner objected that our response of October 1, 2008 was not fully responsive because it did not include arguments pointing out specific distinctions believed to render the added new claims 7-10 patentable over the applied references.

We note that claims 7-10 all depend, either directly or indirectly, from claim 1, which is the only independent claim that is pending in this application. So, for at least the same reasons that claim 1 is patentable over the applied references so are claims 7-10 also patentable over those references.

For at least the reasons presented above and on the response dated October 1, 2008, we believe that the claims are in condition for allowance and therefore ask the Examiner to allow them to issue.

Please apply any charges not covered, or any credits, to Deposit Account No. 08-0219, under Order No. 2000874.00161 US1 from which the undersigned is authorized to draw.

Respectfully submitted,

Dated: January 14, 2009
